Career Objective

I am seeking a position as a Fullstack Developer that aligns with my practical experience and extensive knowledge, where I have developed and demonstrated potential in both frontend and backend development. My initial interest began with a focus on frontend development, but through dedicated learning and additional experience, I have also developed a strong interest in backend development. I am enthusiastic about further enhancing my skills in various aspects to fulfill the Fullstack Developer role while pursuing my passion for Blockchain technology, with the aim of becoming a proficient Web3 Developer and Blockchain Developer in the future.
